

RICH⁺ Nutri-Boost for Fodder

Lush growth and healthy forage

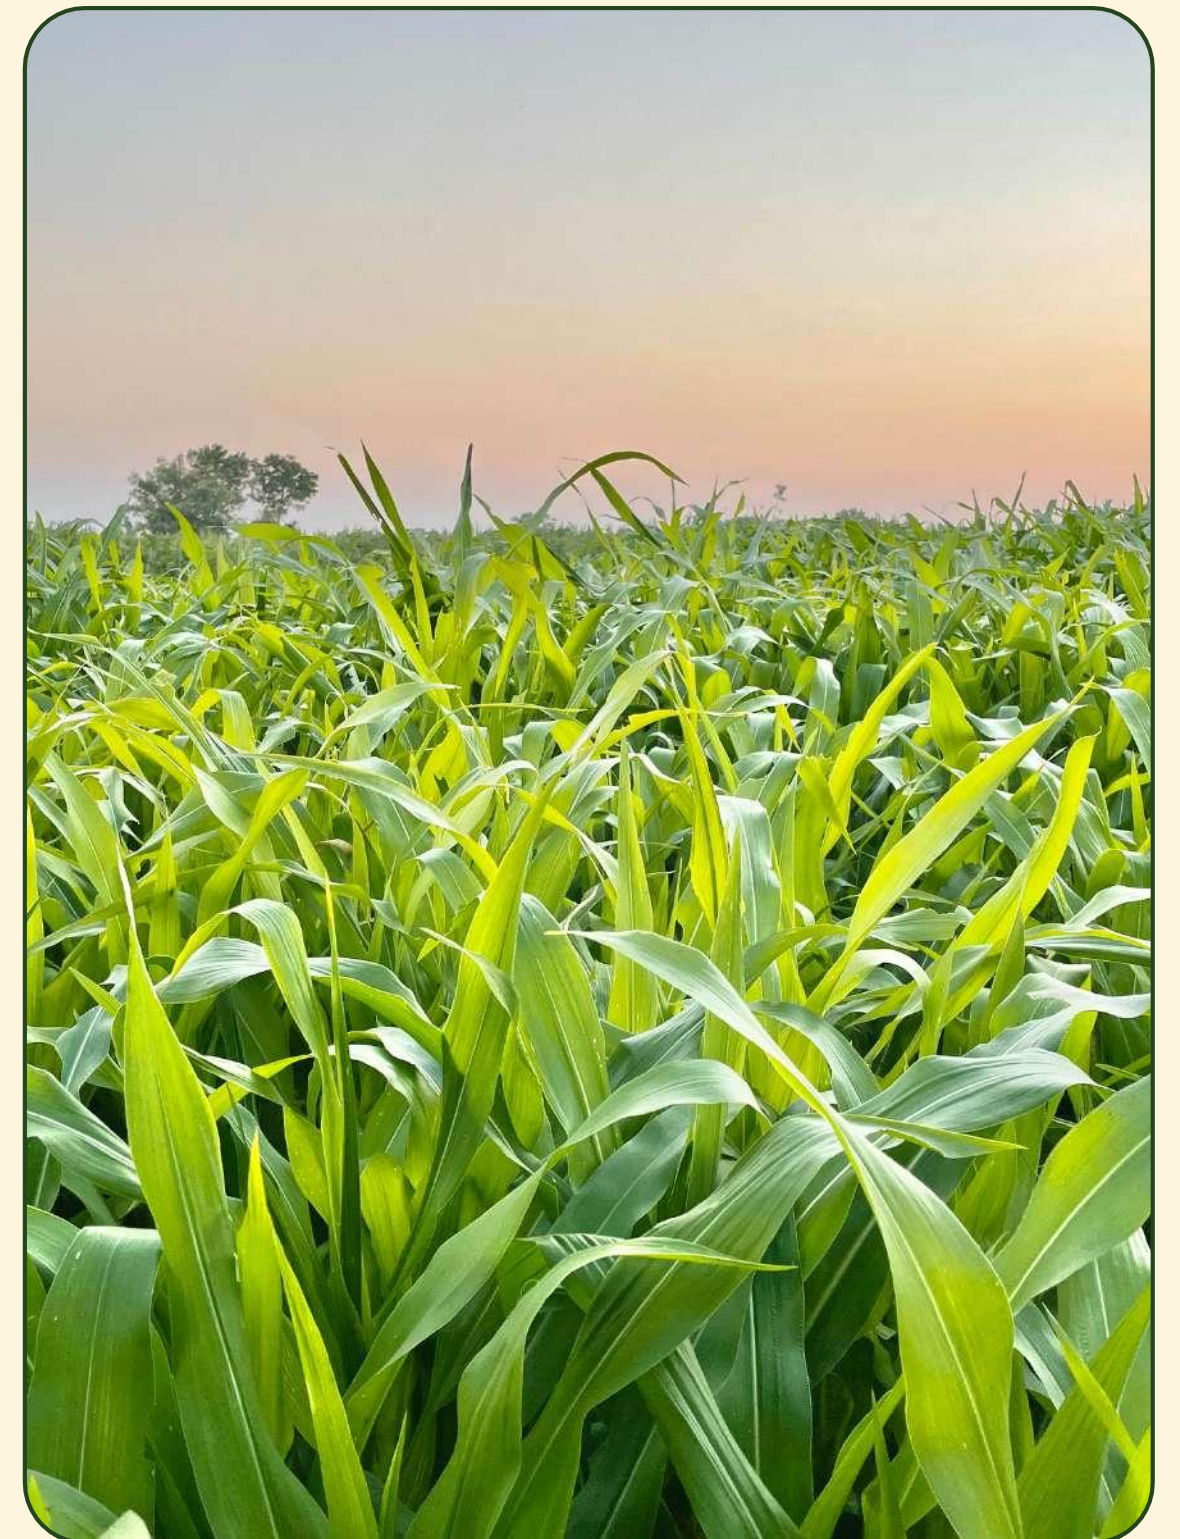

- 🌿 RICH⁺ Nutri-Boost for Fodder is a powerful blend of activated humus extract, bio-catalysed with a unique Microbial Activator and then finely blended with bio-available trace elements of natural origin.
- 🌿 It is based on natural growth hormones from sea-weed and medicinal plant extracts, combined in an ageing process with plant-derived silica liquid.
- 🌿 The formulation is further fortified with a specific range of fermented organic bio-nutrition compounds readily bio-available for immediate uptake into the plant system.

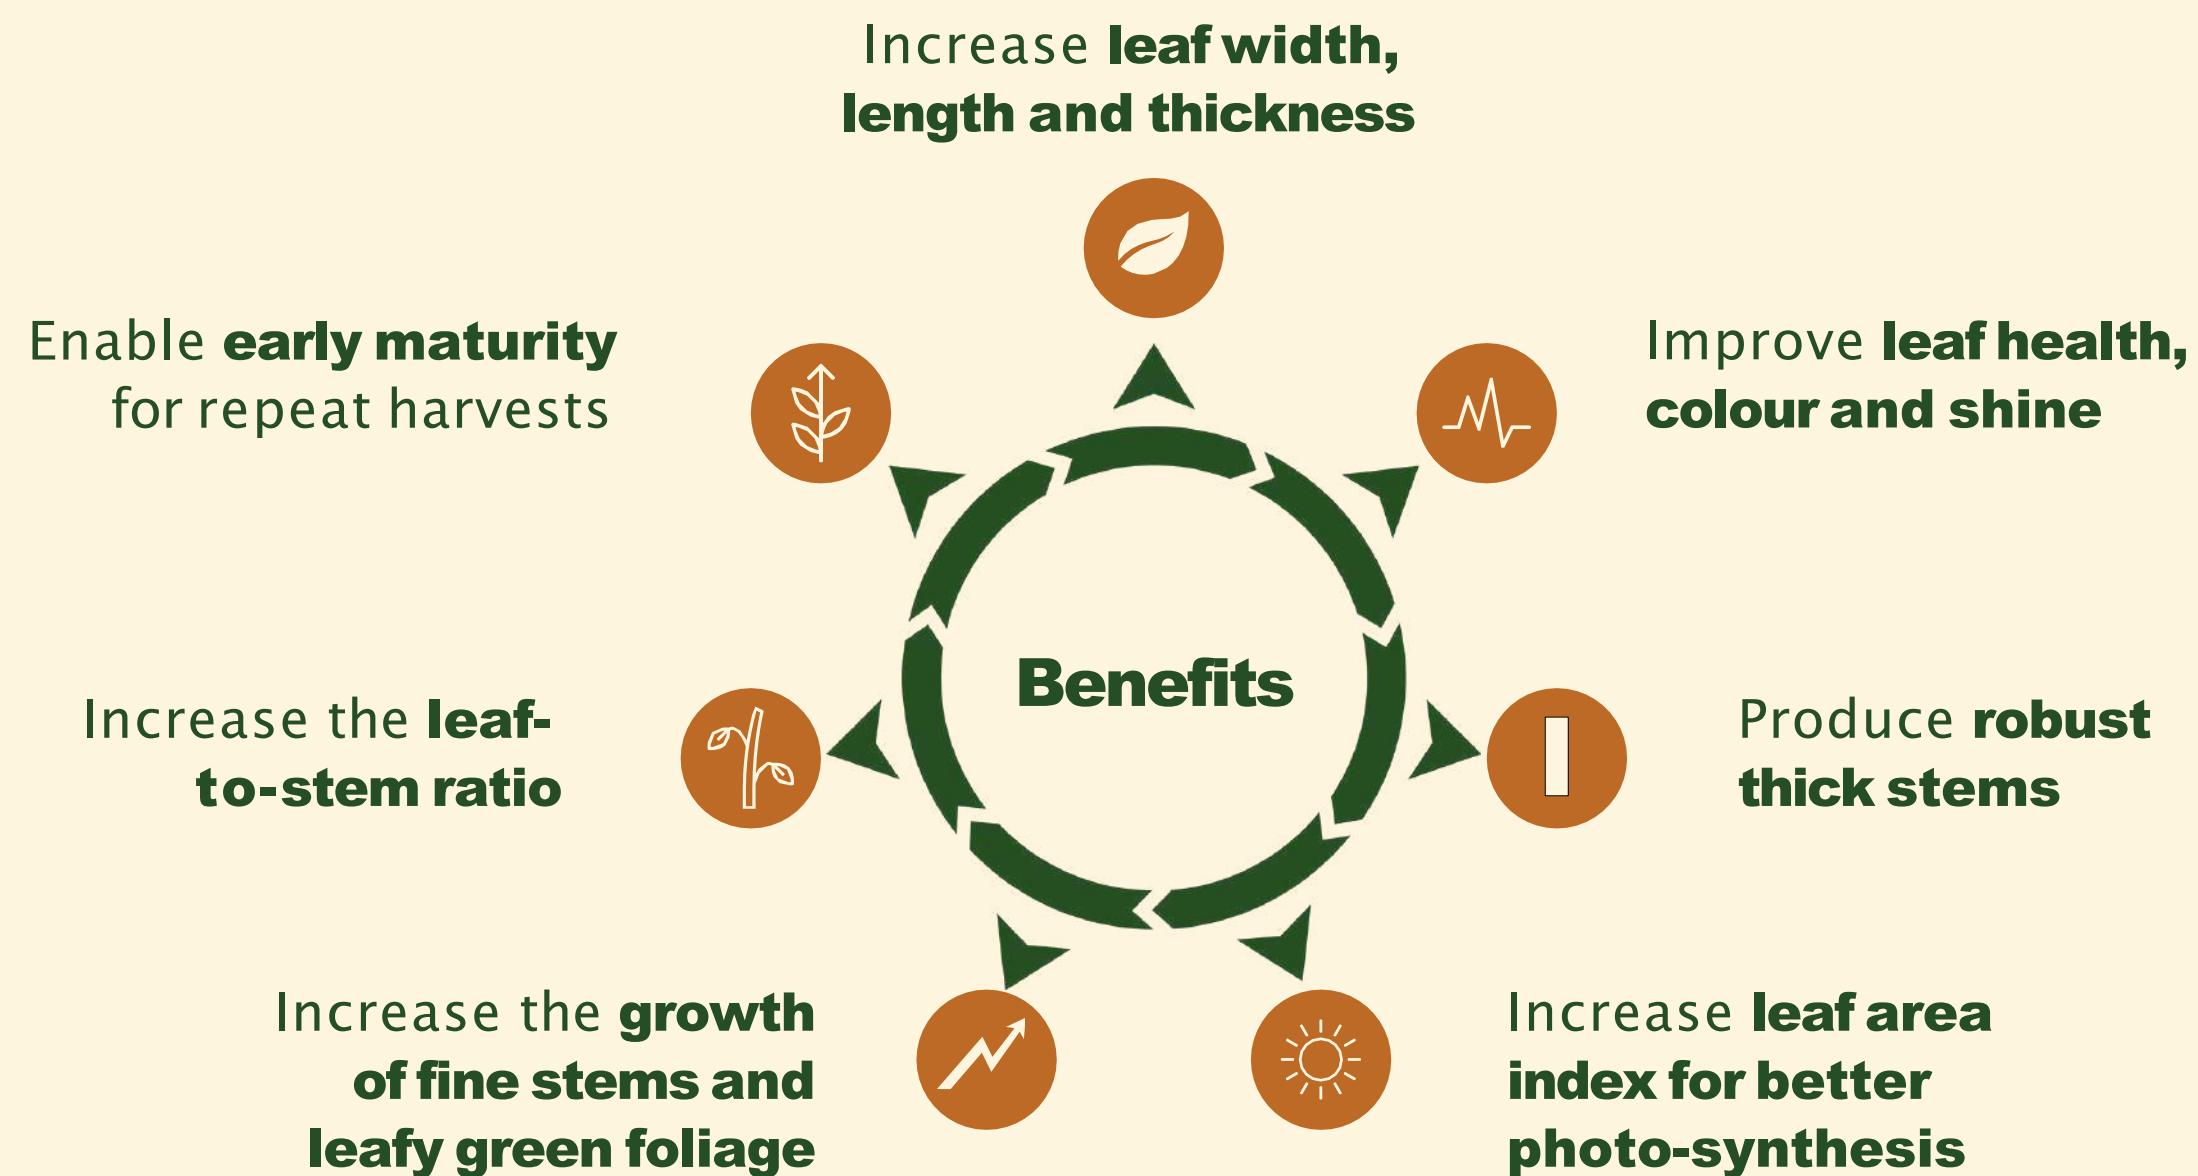

RICH⁺ Nutri-Boost for Fodder

Lush growth and healthy forage

It works to increase the Relative Feeding Value in legumes and grasses to produce nutritious animal feed of higher quality, encouraging greater intake with much better digestibility for a more energetic and nutritious animal diet.

RICH⁺ Nutri-Boost for Fodder

RICH⁺ Nutri-Boost for Fodder

How to Apply

DILUTION RATIO

One litre RICH⁺ Nutri-Boost for Fodder with minimum 100 litres water (max.200 litres)
